

**George Gitau**  
Software Engineer in Nairobi, Kenya (GMT +3)  
Primary: george.gitau@andela.com Personal: gitau.bd@gmail.com

PROFESSIONAL SUMMARY

I have 4+ years in Frontend software development and developed a variety of projects for various clients as listed on my CV. My programming experience is based on Object Oriented Languages and i use frameworks such as React, Python(fastAPI), Golang and Yii2 frameworks in PHP for software development to use the latest security and project structure features provided by the frameworks. I have intermediate experience in Devops having deployed Hela Pesa website and extensive experience in frontend frameworks such JQuery, Bootstrap, Html5, CSS3 and ReactJS. I have extensive experience in API development, System Security, Server administration and System Scaling (using kubernetes). Having worked and managed different projects, I believe I am quite adaptable to different situations and project requirements. I use git version control to track changes and work as part of a team.

**Fun fact:** What three words best describe you?  
Creative, Problem Solver, Passionate

Skills, Tools and Specializations

Technical skills

These skills cover languages, frameworks, libraries, and technical stacks.

Agile Expert , 3 yrs	React.js Expert , 3 yrs	Redux Expert , 3 yrs	Redux Material-UI Expert , 3 yrs	Responsive Web Design Expert , 3 yrs
-------------------------	----------------------------	-------------------------	-------------------------------------	-----------------------------------------

Tools, utilities and services

Tools are third-party websites, SAAS products, and support services used during the course of software development.

Git Expert , 4 yrs
-----------------------

Specializations

Specializations are particular areas in which a developer is able to concentrate on and/or become an expert in.

DevOps Intermediate , 2 yrs

WORK HISTORY

Graphine East Africa Limited

Nairobi, Nairobi  
Feb 2019 - Current · 3 yrs  
Biotechnology, Computer Software [SaaS],  
Education/EdTech, Information Technology & Services,  
eCommerce Industry  
51-200 employees

Front-end Software Developer (Full time)

- Implementing web design and development principles to build stable software. - Communicating technical issues in an understandable manner to the team and clients. - Develop new user-facing features - Tailoring user experience - Production, modification, and maintenance of websites and web application user interfaces - Designing and implementing responsive design for mobile sites - Contributing some back-end experience, collaborating on APIs tailoring - Maintaining software workflow management with Git and GitHub - Carrying out Automatic deployment - Mentoring teams

Accomplishments

- Implementing web design and development
- Communicating technical issues in an understandable manner to the team and clients.
- Contributing some back-end experience, collaborating on APIs tailoring
- Maintaining software workflow management with Git and GitHub
- Carrying out Automatic deployment
- Mentoring teams on the importance of check

Hela Pesa

Nairobi, Kenya  
May 2020 - Aug 2020 · 5 mo  
Financial Services  
11-50 employees

Devops Engineer (Part time)

Worked as Devops Engineer

Accomplishments

- Used CI/CD pipelines to carry out automatic deployments

Fande Data Systems Company

Nairobi, Kenya  
Oct 2018 - Jul 2019 · 10 mo  
Computer Software [SaaS], Financial Services,  
Outsourcing/Offshoring, eCommerce Industry  
11-50 employees

Software Developer (Contract)

- Designing mockups and developing Websites - Frontend Development using React.js, Redux, TypeScript, jQuery, ES6. - Creating Servers and REST APIs using Golang, PHP - Setting up, Developing and Maintaining Databases: MySQL, Postgres. - Devops: Docker - Shipping code in a team environment - Testing to identify bugs and technical issues before and after deploying. - Documenting bug reports, tickets, and any code changes.

Accomplishments

- Designing mockups and developing Websites
- Creating Servers and REST APIs using Golang, PHP
- Setting up, Developing and Maintaining Databases: MySQL, Postgres.
- Devops: Docker
- Shipping code in a team environment
- Testing to identify bugs and technical issues before and after deploying.
- Documenting bug reports, tickets, and any code changes.

Flexpay Limited

Nairobi, Kenya  
Sep 2016 - Oct 2018 · 2 yrs  
eCommerce Industry  
51-200 employees

Junior Software Developer (Full time)

- Development of new software products - Bringing mockups to life using HTML, CSS, JavaScript. - Building websites and apps that are responsive and usable. - Maintenance of existing software products - Development of web application back-end with PHP/Yii - Code version control using Git VCS and GitHub

Accomplishments

- Development of new software products
- Bringing mockups to life using HTML, CSS, JavaScript.
- Building websites and apps that are responsive and usable.
- Maintenance of existing software products
- Development of web application backend with PHP/Yii
- Code version control using Git VCS and GitHub

EDUCATION & LEARNING

Huawei  
Nairobi , Kenya  
May 2020 - Jun 2021 · 1.1 yrs

Certificate in Routing and Switching

Acquired various skills in networking - TCP/IP - VRP - Ethernet Switching - IP Uni-cast Routing - IP Service - Advanced switching technologies - Introduction to - WAN - Access Control - Network Management

Technical University of Kenya

Nairobi , Kenya  
Jan 2017 - Jan 2021 · 4 yrs

Diploma in Computer Technology

Graduated with a diploma certificate in computer technology

Kieni Secondary School

Nakuru , Kenya  
Jan 2013 - Jan 2016 · 3 yrs

Certificate in Kenya Certificate of Secondary Education

Attained certificate of K.C.S.E

TECHNICAL PROJECTS

Quickfix

Feb 2019 - Nov 2021 · 3 yrs

Quickfix

- Implementing web design and development principles to build stable software. - Communicating technical issues in an understandable manner to the team and clients. - Develop new user-facing features - Tailoring user experience - Production, modification, and maintenance of websites and web application user interfaces - Designing and implementing responsive design for mobile sites - Contributing some back-end experience, collaborating on APIs tailoring - Maintaining software workflow management with Git and GitHub - Carrying out Automatic deployment - Mentoring teams on the importance of checking the website for cross-browser compatibility issues.
